THE BILTMORE RANGERS. Boys and Young Men Studying Forestry on the Vanderbilt Estate. When George Vanderbilt went down to North Carolina twenty years ago and fell in love with the country he cut off the

forms what is probably the most beauti-

MONTCLAIR, N. J.—\$18,000; must sell, owner leaving town; cost \$25,000; modern Colonial house. The woodland fascinated him, says a writer in St. Nicholas. He wanted to preserve it yet to make it of use and to retain its beauty, so he began adding forest after forest to his estate, until he now set after forest to his estate, until he now est after forest to his estate, until he now owns 200 square miles of hill and valley. much of it tree covered, including Mount Pisgah, whose summit is over a mile above WM. C. BURROUGHS, ASBURY PARK, N. J. the level of the sea.

After he had secured this little empire

the question that arose was how he could

best make it serve his purposes. Tim-

bermen say that if all the good trees were

cut off to-day Mr. Vanderbilt would get so much money from the lumber that he would be far more than repaid for the cost of the land, because the forest is so dense He wants to keep the woodland "growing perpetually" yet to make it pay for itself and to yield enough money yearly to meet the expense of fencing it. with taxes and other outlay. Thus it is that the Biltmore Rangers, as they are called, have a working ground yet also a biayground unlike that possessed by any other set of youngsters in the world.

called, have a working ground yet also a blayground unlike that possessed by any of other set of youngsters in the world.

Boys and young men have come here from every part of the country and every month of the year finds them busy. From November to April their headquarters see in Biltmore village, on whose outskirts there are \$500 acres of forest belonging to the estate. From this comes a third of the finel burned in Asheville.

Here the forestry students learn what tree to cut for firewood, how to fell them. Now he saw and pile cordwood and how its estimate the amount of fuel wood in standing timber. Part of their work contains the mount of uel wood in standing timber. Part of their work contains the amount of two the firework in young hardwood trees.

In April the young foresters pack through the wilderness to the foothills of Pisgah. Here they spend a mount among the tanbark trees, become familiar with the output as designated by the various log rules and they grade the lumber as it comes from the saw. They are in young hardwood trees.

They become familiar with the handling of Pisgah. Here they spend a mount with the output as designated by the various log rules and they grade the lumber as it comes from the saw. They are in the output as designated by the various log rules and they grade the lumber as it comes from the saw. They are in the output as designated by the various log rules and they grade the lumber as it comes from the saw. They are piles are arranged in the yard. They are piles are arranged in the yard. They are piles are as trooped from the saw. They are included of May camp is struck and under the shadow of Pisgah become for an acting it up it is new position.

Between five and ten miles of roads are surveyed and lead out with the value to the same than the propoused to the prevail of the first and under the shadow of Pisgah become lumber orusers, estimating the affiount the proposition of all the grades and there in the prevail of the first proceeded to the value of the prevailable of the
